Video Projection

If in house video projector and/or screen are available we'll provide HDMI or VGA outputs to play synched video with set. Otherwise, we'll use our own 6.75' x 12' grommated portable screen (to be flown/hung/upstage wall-mounted with zip ties, nylon cord, bungees/sandbags, etc.) and our 3000 lumen Epson HDMI/VGA input video projector. We have converters and 25' VGA & composite and 50' HDMI cabling to get from Stage R position to your projector/screen tie-in.

Hospitality

We appreciate your hosting us at your venue. We are team players and have no significant needs other than listed below, which we consider essential to a successful production.
